Augustus

A musical fairy-tale

Augustus

A musical fairy-tale

In the evening, when the sun had set and the moon had not yet risen, it often occurred that miraculous music seemed to emanate from the neighbour's house. A delicate and fragile tinkling of tiny bronze or perhaps even china instruments. A sound so subtle, that of its own accord it seemed to drown everything else into silence. Music that made one drift into a state of the utmost tranquility.

What would you wish for your new-born child? Supposing you could ask for just one thing? Money, happiness, health, beauty, strength? That is the question Augustus' mother finds herself confronted with. She makes her choice. A choice having many implications. *Augustus* is a story full of enchanting music and exciting developments.
